EXPERIENCE

Resume Worded   *October 2021 - Present*
Python Developer

- Revitalized an outdated codebase by implementing Python best practices, which enhanced system stability and resulted in a 20% decrease in customer-reported issues.
- Integrated machine learning algorithms into the core platform, automating content categorization and achieving 99.5% accuracy in content targeting.
- Developed a Python script to automate the analysis of user feedback, slashing report generation time by 60% and providing actionable insights for product improvements.
- Led the migration from monolithic architecture to microservices using Python and Docker, improving scalability and paving the way for a 10% increase in service capacity.
- Implemented continuous integration and deployment with GitLab CI/CD, reducing code integration time by 50% and accelerating feature releases.

Habitat for Humanity   *July 2018 - September 2021*
Data Manager

- Streamlined data collection processes, implementing a centralized data storage solution that improved data accessibility for stakeholders by 40%.
- Developed a suite of Python scripts to automate mundane data entry tasks, which resulted in saving 20 hours of staff time per week.

DHL Supply Chain   *March 2016 - June 2018*
Operations Analyst

- Introduced a Python-based tool for logistics optimization which cut routing inefficiencies by 25%, saving the company an estimated $100,000 annually in fuel costs.

Johnson & Johnson   *January 2014 - February 2016*
Project Coordinator

- Coordinated multiple cross-departmental projects, utilizing Python for data analysis which enhanced project tracking and led to a 15% improvement in project completion rates.

EDUCATION

Resume Worded Institute   *May 2017*
Master of Science - Computer Science

- Concentration in Software Development
- Part-time alongside full-time development role

Resume Worded University   *June 2013*
Bachelor of Science - Computer Science

- Cum Laude honors
- Leadership role in Coding Club

SKILLS

Programming Languages: Python (Expert), JavaScript (Intermediate), HTML (Intermediate), CSS (Intermediate), SQL (Advanced), Bash (Basic)

Web Frameworks: Django (Advanced), Flask (Advanced), React (Basic), Node.js (Basic), Bootstrap (Intermediate), Express.js (Basic)

Databases: MySQL (Advanced), PostgreSQL (Advanced), MongoDB (Intermediate), SQLite (Intermediate), Redis (Basic), Elasticsearch (Basic)

Tools & Platforms: Git (Advanced), Docker (Intermediate), Jenkins (Intermediate), AWS (Intermediate), JIRA (Intermediate), Kubernetes (Basic)

OTHER

Certifications: Certified Python Developer (2020), AWS Certified Developer - Associate (2021)

Publications: Contributed to 'The Python Journal' on advancements in web applications (2019), Co-author of 'Efficient Coding Practices' in 'DevMagazine' (2018)

Volunteering: Code for Good - Mentor for underprivileged students learning to code (2019-2021), TechNoEnd - Organizer for local tech meetups and hackathons (2019-present)

Projects: Developed an open-source tool for Django code optimization (2018), Contributor to 'Pandas' Python library on GitHub (2017-present)
